

Break Energy of PS-PBMA-PVDF Polymer Blends

Employing the [Interpolation](#) package, this application generates a smoothly shaded ternary plot of the energy at break of polystyrene, polyethyl methacrylate and polyvinylidene fluoride blends

Experimental data is taken from "Application of Statistical Mixture Models for Ternary Polymer Blends", Nascimento, I. et al, J. Braz. Chem. Soc., Vol. 8, No. 6, 587-595, 1997
